

ADROIT ADVANCED SECURITY

COMPANY PROFILE

INSIDE PROFILE

Benefits of choosing a longstanding and industry expert in security and cybersecurity to make the decisive and tactical changes you need for your home and business.

SAFEGUARD YOUR COMPANY

With elite cybersecurity risk migration structures that monitor, protect and eliminate all security risks to your company.

A TASK FORCE YOU CAN TRUST

At Adroit Advanced Security, we uphold quality, professionalism, and excellence. True peace comes through strategic preparation, and our elite team ensures unwavering protection with precision and trust—delivering nothing less than the ideal.

ABOUT ADROIT SECURITY

Adroit Advanced Security is a premier security solutions provider founded by a cadre of elite former military operators. Our team is an elite force of highly skilled professionals who have honed their expertise in the most challenging environments and missions worldwide.

Leveraging decades of combined experience in military operations, we bring unparalleled precision, discipline, and tactical knowledge to the private security sector. At Adroit Advanced Security, we understand that modern security challenges require more than just standard measures; they demand a strategic approach rooted in real-world experience and advanced operational capabilities.

Our services are designed to meet the unique needs of our clients, ensuring safety, security, and peace of mind in any situation. Whether it's high-risk protection, tactical security, or comprehensive threat assessments. Our elite team is also dedicated to delivering strategic brilliance with the utmost professionalism and integrity. Our commitment to excellence is reflected in our meticulous planning, cutting-edge technology, and unwavering dedication to client satisfaction. As a trusted partner in security, Adroit Advanced Security stands ready to protect what matters most, backed by the proven expertise of former military operators who are the highest caliber in their field.

HIGH-RISK PROTECTION

High-Risk protection services provided by Adroit Advanced Security are designed to safeguard clients in the most volatile and dangerous environments. Leveraging the expertise of our elite former military operators, we offer customized security solutions for individuals and assets at high risk due to threats such as political instability, terrorism, and organized crime. Our high-risk protection teams are adept at threat analysis, strategic planning, and rapid response, ensuring maximum safety and peace of mind in the most challenging situations.

CLOSE PROTECTION

Our Close Protection services focus on providing personalized security for high-profile individuals, including executives, celebrities, and dignitaries. Our team of highly trained former military professionals ensure discreet and effective protection, allowing clients to conduct their activities without interruption or threat. With meticulous planning, risk assessment, and on-the-ground vigilance, we offer a seamless security experience tailored to meet the specific needs of each client.

SERVICES/ ADROIT ADVANCED SECURITY

ARMOURED ESCORTS

Armoured Escorts by Adroit Advanced Security offer an extra layer of security for the transportation of high-value assets and individuals. Our fleet of state-of-the-art armoured vehicles, manned by experienced former military operators, ensures safe passage through potentially hostile environments. Whether it's for executive transport, valuable shipments, or sensitive materials, our armoured escort services guarantee protection against threats such as armed attacks and ambushes.

RISK ASSESSMENT

Our comprehensive Risk Assessment services are designed to identify, evaluate, and mitigate potential threats to your organisation. Using advanced analytical tools and the insights of our seasoned professionals, we conduct thorough assessments of your security posture, vulnerabilities, and potential risks. Our detailed reports provide actionable recommendations to enhance your security measures, ensuring that you are prepared to address and counteract any threats effectively.

PRIVATE INVESTIGATION

Private Investigation services by Adroit Advanced Security are conducted with the utmost discretion and professionalism. Our team of skilled investigators, many with backgrounds in military intelligence, employ advanced techniques and technologies to gather critical information. Whether it's for corporate investigations, background checks, fraud detection, or personal matters, we deliver accurate and comprehensive results that help our clients make informed decisions.

OFF-SITE MONITORING

Our Off-Site Monitoring services provide continuous surveillance and security management from a remote location, utilising the latest in surveillance technology. Our monitoring center is staffed by trained operators who keep a vigilant eye on your premises, ensuring prompt detection and response to any security breaches. This service offers an effective and cost-efficient solution to maintaining high security standards without the need for a constant physical presence on-site.

TSCM (TECHNICAL SURVEILLANCE COUNTER MEASURES)

Technical Surveillance Counter measures (TSCM) services are essential for protecting your organisation against electronic eavesdropping and espionage. Our TSCM experts utilize cutting-edge technology to detect and neutralize hidden surveillance devices and other electronic threats. We provide comprehensive sweeps of offices, vehicles, and residences, ensuring that your confidential information remains secure from unauthorized access and spying activities.

DRONE SURVEILLANCE

Drone Surveillance services by Adroit Advanced Security utilize advanced unmanned aerial vehicles (UAVs) to provide real-time aerial monitoring and intelligence gathering. Our drones are equipped with high-resolution cameras, thermal imaging, and other state-of-the-art sensors to conduct surveillance over large areas, detect potential threats, and monitor activities from a safe distance. This technology enhances our ability to secure perimeters, conduct search and rescue operations, and provide situational awareness in complex environments, ensuring that we stay one step ahead of potential threats.

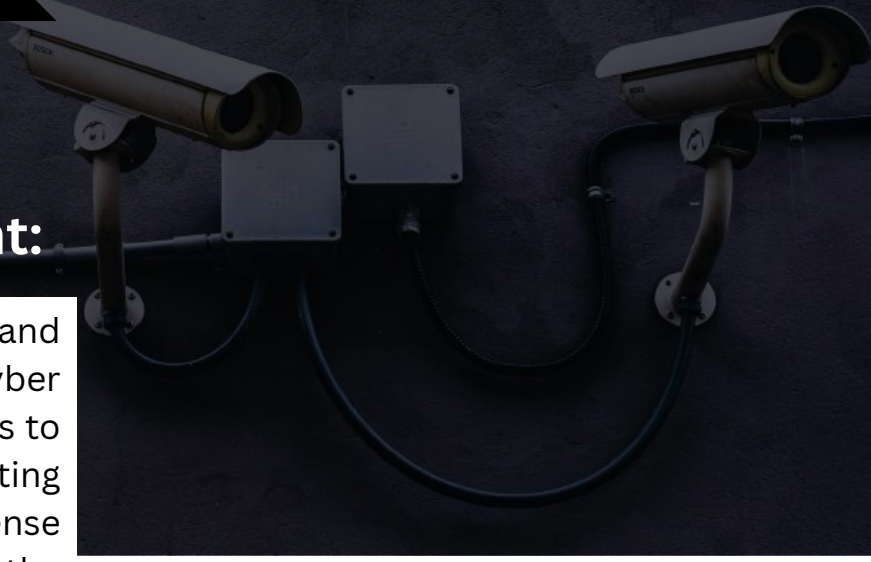

CYBER SECURITY

Cyber Security services by Adroit Advanced Security are designed to protect your organisation against the ever-evolving landscape of cyber threats. Our team of experienced cybersecurity professionals, many of whom have backgrounds in military and intelligence operations, utilize advanced technologies and proven methodologies to secure your digital assets.

"Si vis pacem, para bellum"
If you want peace, prepare for war

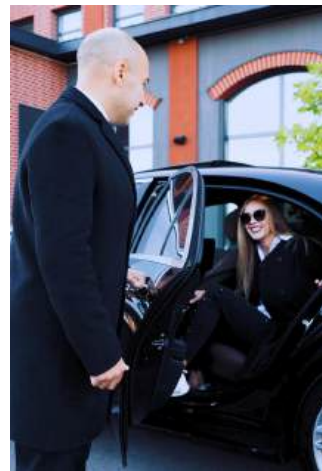

Cyber Risk Assessment:

Identifying potential risks and vulnerabilities in your current cyber posture, with tailored recommendations to fortify your systems. By implementing these and other customized cyber defense strategies, we help our clients maintain the integrity, confidentiality, and availability of their critical information. Our proactive approach ensures your organisation is one step ahead of cybercriminals, safeguarding your digital landscape from emerging threats.

K9 SERVICES

K9 Services provided by Adroit Advanced Security incorporate highly trained dogs and handlers for various security operations. Our K9 units specialize in detecon (narcotics, explosives), patrol, and search and rescue missions. Trained by elite former military personnel, our dogs are known for their exceptional skills, reliability, and effectiveness in high-stress environments. These K9 units are an invaluable addition to any security detail, offering capabilities that go beyond human limits.

Each of these services is backed by the unmatched expertise and operational excellence of Adroit Advanced Security, ensuring that we deliver the highest level of security and protection to our clients.

If you want peace, prepare for war

We offer a comprehensive range of services, including:

Network Security:

Safeguarding your networks from unauthorized access, data breaches, and hacks with cutting-edge firewalls, encryption, and security protocols.

Threat Penetration Testing:

We simulate real-world cyber-attacks on your systems to identify vulnerabilities before malicious actors can exploit them. Our penetration tests help uncover weaknesses in your infrastructure, applications, and network security, allowing for targeted improvements and proactive defense measures.

Data Encryption

Ensuring sensitive information remains protected from unauthorized access through robust encryption techniques.

Threat Detection & Incident Response:

Using state-of-the-art tools to detect cyber threats in real-time, combined with rapid incident response to neutralize and mitigate any potential damage.

Scanning of Buildings and Offices for Bugs and Breaches:

We conduct comprehensive technical sweeps of entire buildings and office spaces to detect hidden surveillance devices, bugs, or unauthorized digital intrusions, ensuring both physical and cyber security for sensitive areas.
